

## KENNILWORTH SEC. 6 -T13S - R10E

## Exercise #1

## **Sequence Stratigraphy of Clastic Outcrops:**

Match sediment types and structures to one of the following depositional settings:

- 1) Foreshore & Upper Shoreface
- 2) Lower Shoreface or Delta Front
- 3) Offshore Shelf and then divide section into "Parasequences"! The top of the section is a parasequence boundary. [Section from Van Wagoner et al 1990]
